◆ **Safety During Snow Removal**
Please cooperate when the Seminary crew is in the process of removing snow, sanding and/or salting ice, etc. **Please stay clear of snow**

clearing machinery. This is especially important for children to remember. During the last snowstorm there were several incidents of students and residents dodging in front of and behind equipment during plowing. Accidents could easily have occurred. Our equipment operators work in bad weather and often with limited visibility and must watch for vehicles, curbs, manholes, and other hazards. People darting in and out add to the difficulty and create a potentially dangerous situation as well.

Parents should keep children inside or at a safe distance while snow is being cleared in the area. During the last storm, children tunneled and played in parking lot snow drifts while snow was being removed.

As parking lot spaces are cleared, students and residents should dig out their cars and move them to cleared areas. This will allow the crews to clear all parking lots in a minimum amount of time.

The Seminary crew works hard to clear all parking lots, driveways, and sidewalks for your safety and convenience. Your understanding and cooperation during snow removal operations is greatly appreciated.

◆ **Important Recycling Notice**

Recycling is the law, and as members of the Seminary community concerned with natural resource stewardship, we need to do all we can.

Please be diligent about separating newspapers, office paper (which includes junk mail, flyers, magazines, etc.) and cans and bottles from ordinary trash and garbage. Use the barrels and recycling containers in your building. The Seminary can be fined for noncompliance with this law.

◆ **Do Not Feed the Squirrels or Birds**

The Princeton Regional Health Department has notified the Seminary that placing food on the ground to feed animals is a violation of local health codes. In addition to attracting birds and squirrels (which some people like), it can also attract mice and rats (which most people do not like).

In order to maintain a healthy environment and not risk a fine from the borough, please do not place food for wildlife on the ground or on windowsills. This includes birdseed, crackers, nuts, and old bread.

◆ **Safety During Snow Removal**
Please cooperate when the Seminary crew is in the process of removing snow, sanding and/or salting ice, etc. **Please stay clear of snow clearing machinery.** This is especially important for children to remember. During the last snowstorm there were several incidents of students and residents dodging in front of and behind equipment during plowing. Accidents could easily have occurred. Our equipment operators work in bad weather and often with limited visibility and must watch for vehicles, curbs, manholes, and other hazards. People darting in and out add to the difficulty and create a potentially dangerous situation as well.

Parents should keep children inside or at a safe distance while snow is being cleared in the area. During the last storm, children tunneled and played in parking lot snow drifts while snow was being removed.

As parking lot spaces are cleared, students and residents should dig out their cars and move them to cleared areas. This will allow the crews to clear all parking lots in a minimum amount of time.

The Seminary crew works hard to clear all parking lots, driveways, and sidewalks for your safety and convenience. Your understanding and cooperation during snow removal operations is greatly appreciated.

◆ **Important Recycling Notice**
Recycling is the law, and as members of the Seminary community concerned with natural resource stewardship, we need to do all we can. Please be diligent about separating newspapers,

office paper (which includes junk mail, flyers, magazines, etc.) and cans and bottles from ordinary trash and garbage. Use the barrels and recycling containers in your building. The Seminary can be fined for noncompliance with this law.
Contact: David Poinsett
Phone: 497-7778

◆ **Do Not Feed the Squirrels or Birds**
The Princeton Regional Health Department has notified the Seminary that placing food on the ground to feed animals is a violation of local health codes. In addition to attracting birds and squirrels (which some people like), it can also attract mice and rats (which most people do not like).

In order to maintain a healthy environment and not risk a fine from the borough, please do not place food for wildlife on the ground or on windowsills. This includes birdseed, crackers, nuts, and old bread.

Teen/Student: Teenagers and students may purchase tickets for any performance at $5 each. These may be purchased in advance of the performance; each teen or student may buy two tickets. The play's content is powerful and probably not suited to those younger than teenagers.
